To,

The Chief Executive Officers/ Engineer-in-Chief/ Chief Engineers
implementing PMGSY for the States.

Subject: Uploading of PMGSY-III Large Span Bridge (LSB) and road Proposals on Geo-Sadak.

Sir,

In PMGSY-III all road proposals are being drawn/marked on GIS on GEOSADAK by the states which is a prerequisite for conducting Planning audit of proposals before sanction of the proposals.

This is in conjunction with the effort to establish and upgradation of Centralized GIS Database and planning audit of the proposals at NRIDA.

1. The GIS alignments of the road and LSB proposals that have been sanctioned prior to Geo-Sadak have to be uploaded on Geo-Sadak mandatorily for posterity.
2. It has now been enabled a new drawing module under the state user login to draw the LSB proposals on GEOSADAK. The flow of Approval and Reports for LSB proposals is similar to the Road Proposal module on Geo-Sadak. Necessary training was given to the concerned stakeholders, regarding drawing of LSBs on Geo-Sadak.
3. It is requested to Please expedite the drawing of LSBs span and road proposals for all the road and LSB proposals that have already been sanctioned so far at the earliest.

It is also impressed that states preparing proposals for the upcoming Batch for PMGSY-III, all the LSB proposals along with road proposals should also be drawn/marked on GEOSADAK before the proposals are placed before Pre-EC without fail.

With Regards,

Yours sincerely,

(B.C. Pradhan)
Director (Technical)
